  - X10807 White   X10808 Brown
  - X10809 Black   X10810 Magenta
  - X10811 Peach   X10812 Turquoise Blue
- Tru-Ray® Color Wheel Assortment Construction Paper, 144 sheets of 9" x 12", P6576
- Prang® Washable Glue Stick, .28 oz, X15089
- Straw
- Water
- Eraser
- Paper Towel

Activity

1. With pencil, lightly draw your spiderweb shape on mixed media paper.

2. Erase pencil lines so you can barely see where spiderweb was drawn.

3. Draw over the erased lines with a white crayon. Make sure to go over each line a couple times to make sure the line is solid (this will help resist the watercolor better).

4. Use a pipette to add water to watercolors of your choice, and use a paintbrush to mix the water and paint in the palette.

5. Use a pipette or syringe to transfer the paint from the palette to the paper. If you do not have those, you can use a brush to do so.

6. Blow the paint across the paper with a straw. Turn your paper and blow from different directions to cover the page and expose the crayon-resist spider web. Continue to add watercolor until you've achieved your desired result and most of the spider web is revealed. Allow watercolor to dry.

7. Use a paintbrush and tempera paint to add any spooky additions to the spider web, such as a spider or other bugs.

8. Mount painting on a solid piece of construction paper and add it to your Halloween decor!
