

Crayon Texture

Draw and Paint Project

OBJECTIVE

Students can experiment with texture rubbing and watercolor resist. This multi-stage project lets students learn about layering color and texture.

Developed by:

NATIONAL STANDARDS

Creating, Anchor Standard 1

Generate and conceptualize artistic ideas and work.

Creating, Anchor Standard 2

Organize and develop artistic ideas and work.

Creating, Anchor Standard 3

Refine and complete artistic work.

Materials:

- Prang® Crayons, 24 pack, X00400
- Prang® Watercolor Pad, 9 x 12-inch, 30 count, P2367
- Oval Watercolor Set, 8 count, X00800
- Posterboard
- Scissors
- Hot glue

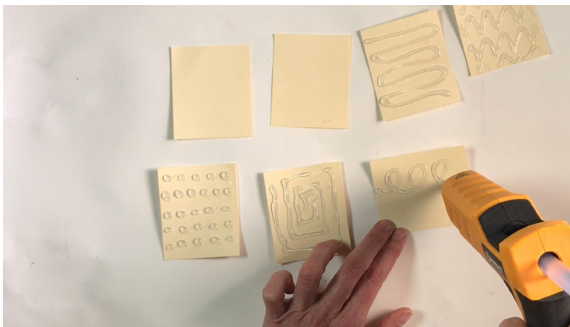

Activity:

For the teacher:

1. Cut the posterboard into 2.5 x 3-inch rectangles.
2. Use the hot glue to “draw” different shapes and patterns onto each rectangle.
3. Once the hot glue has cooled and set, the rectangles are ready for students to use.

For the students:

4. Peel the paper wrapper off of the crayons.
5. Place one of the rectangles with the glue on it under the watercolor paper.
6. Using the side of the crayon, rub the crayon over section of the watercolor paper with the textured rectangle underneath. A corresponding shape or pattern will appear on the watercolor paper.

7. Repeat step 6 until the paper is full of crayon rubbings.
8. Using the watercolors, paint over the crayon rubbings. The crayon will resist the watercolors, resulting in the final artwork.
